**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

***Response to Amendment***

The reply filed on 17 October 2011 is not fully responsive to the prior Office Action because of the following matters: only most of the recitations of “manway” have been changed to “walkway.” All recitations must be the same in order to provide clear antecedent basis.

Regarding the drawing, the claimed matter must be shown in the manner claimed. Note that the claim uses the term “consisting of” in the preamble; therefore, a drawing which properly illustrates the invention cannot include the building (19). Additionally, the parking areas as shown are not “aerial layers that are formed between said motorway and said walkway”; rather, there is only one layer (i.e., not a plurality of, as denoted by the plural “layers”) that could be considered to be aerial and the parking areas are adjacent to, not “between” the motorway and walkway. At least one drawing which clearly and completely illustrates the invention as claimed must be present. No new matter may be entered.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is (571)272-6989. The examiner can normally be reached on Tuesday through Friday, 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached on 571-272-6998. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
